

ANKUSH KUMAR SINGH

hc.ankush@gmail.com | (+91) 9973697702 | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

SKILLS

- **Programming:** Python, SQL, C++
- **Data Analysis:** Pandas, NumPy, Exploratory Data Analysis (EDA), Data Cleaning, Data Wrangling
- **Machine Learning:** Scikit-Learn, Classification Models, Feature Engineering, Model Evaluation
- **Data Visualization:** Power BI, Excel, Matplotlib, Seaborn
- **Tools:** MySQL, Jupyter Notebook, Git, GitHub

EXPERIENCE

Data Analytics Virtual Intern – Infosys Springboard

(Aug 2024 – Oct 2024)

- Created interactive Power BI dashboards analyzing hotel revenue, ratings, and booking trends.
- Built KPIs (Total Revenue, ADR, Stay Nights) and visualized insights with charts, maps, and KPIs.
- Cleaned, transformed, and modeled hotel revenue datasets using Power Query and DAX to support dashboard development and reporting.

Data Analytics Virtual Intern – Cloud Counselage Pvt. Ltd.

(Jun 2024 – Aug 2024)

- Analyzed student performance & demographic data using Python (Pandas, Matplotlib, Seaborn).
- Created data visualizations to identify trends and relationships between GPA, family income, programming experience, and expected salary.
- Documented analytical findings and presented insights through summary reports and visualizations.

PROJECTS

1. HotelRevAI – Hotel Revenue Analysis Dashboard | (Power BI, DAX, Power Query) | [LINK](#)

- Built interactive Power BI dashboard analyzing hotel revenue and booking trends.
- Created DAX measures and KPIs including ADR, Revenue, and Stay Nights.
- Used Power Query for data cleaning and transformation.

2. Titanic Survival Prediction | Python, Pandas, Scikit-Learn | [LINK](#)

- Built a machine learning model to predict passenger survival using the Titanic dataset.
- Performed data preprocessing, feature engineering, and exploratory data analysis.
- Trained and evaluated classification models including Logistic Regression, Decision Tree, and Random Forest using Scikit-Learn.
- Achieved 82% accuracy using Random Forest and compared results with Logistic Regression and Decision Tree models.

3. Student Data Analysis | Python (Pandas, Matplotlib, Seaborn) | [LINK](#)

- Analyzed student demographic and academic performance data using Pandas to identify factors influencing GPA and expected salary outcomes.
- Created visualizations using Matplotlib and Seaborn to explore relationships between GPA, family income, study habits, and programming experience.

CERTIFICATIONS

- **IBM Data Analyst Professional Certificate** | COURSERA [CERTIFICATE](#)
- **IBM Data Science Professional Certificate** | COURSERA [CERTIFICATE](#)
- **Programming for Everybody (Getting Started with Python)** | COURSERA [CERTIFICATE](#)

EDUCATION

B.Tech in CSE & Data science | GGSESTC | JUT

81.4 SGPA | (2024-2027)

Diploma in CSE | Government Polytechnic Dhanbad | JUT

76.56% | (2021-2024)

ACTIVITIES

- **Team Lead, Smart India Hackathon (SIH 2025)** – Currently leading a 6-member team on the “Beej” app recommending optimal crops to farmers.
